

The Regional Approach to Stockpile Reduction (RASR) Initiative

The RASR Initiative is a long-term, coordinated, regional approach to address the threats posed by excess, unstable, loosely secured or otherwise at-risk stockpiles.

RASR encourages affected governments and relevant organizations to develop a pro-active and coordinated approach to secure and destroy conventional weapons and ammunition, by building local capacity, sharing best practices and lessons learned, and synchronizing resources in order to maximize their efficiency.

The ultimate aim of the RASR Initiative is to prevent UEMS and diversion.
