

Experience of the Ministry of Defence of the Republic of Slovenia in the transport of ammunition for demolition

6th RASR Workshop
Bled, Slovenia, April 4th, 2013

Željko KRALJ, MSc
Head of Defence and Confidential
Procurement Section

- Project of demolition of surplus ammunition – 2005 – 2011
- 9 contracts; 6 contracts for the demolition of ammunition and 3 contracts for the transport of ammunition
- 1st phase (original contract):
 - SMOD is responsible for:
 - Preparation of the ammunition for transport
 - Transport of the ammunition to collecting points
 - Acquisition of export licence (SMOD) and transit licences (service provider of the transport)
 - Preparation of all other documents for the transport of ammunition (SMOD and service provider)
 - Transport of ammunition (a different contract with the service provider of the transport).
 - Service provider is responsible for:
 - acquisition of the import licence
 - unloading and storing of ammunition
 - dismantling and demolition of ammunition

- 2nd phase (last contracts):

SMOD is responsible for:

- Preparation of the ammunition for transport
- Transport of the ammunition to collecting points
- Acquisition of export licence (issued by the SMOD)
- Loading of the ammunition

Service provider is responsible for:

- Acquisition of import licence and transit licences
- Preparation of all documents for the transport of ammunition
- Transport of ammunition
- Unloading and storing of ammunition
- Dismantling and demolition of ammunition

Recommendations:

- accuracy of data
- preparation for transport
- one contract for transport and demolition of ammunition (a complete service)

Thank you for your attention!
